660.5 V.7

The Glass Industry

THE MONTHLY JOURNAL OF

Glass Technology, Engineering, Raw Materials, Glass Factory Equipment and Operation

Index to Volume 7

JANUARY TO DECEMBER, 1926

GLASS INDUSTRY PUBLISHING COMPANY, Inc.
NEW YORK

Pages	1926
1 to 30	January
31 to 58	February
59 to 80	March
81 to 106	April
107 to 128	May
129 to 152	June
153 to 178	July
179 to 206	August
207 to 230	September
231 to 254	October
255 to 282	November
238 to 308	December

ARTICLES

*American Ceramic Society's Annual Meeting 59
American Ceramic Institute Discussed, Proposal for an 222
Ash in Producer Fuel and Its Significance 157
*Batch Feeder in Successful Operation on Window Glass Tank, Continuous 4
*Batches of Twenty-five Hundred Years Ago, The Glass-Making Methods and 264
*Blown Glassware, The Use of Temperature Gradients in the Fabrication of 233
*Bottle Company, New Plant of Sheffield Glass 181
Bottles, Strain and the Hot Water Test for 261
*Bottles, The Testing of Milk..... 137
*Bulbs Daily, Making 265,000 Electric Light 38
Chromium, Can Glass Molds Be Coated With 191
*Coal, Electrification Effects Large Saving in 267
Colored Glass, A New Method of Producing 90
Colorless Glass Production in Tank Furnaces 213
*Compressed Air in the Glasshouse... 109
*Corning, Tank Block Problem Solved at 255
*Corrosion, Theory of Glass Tank Block 107
Cullet in Glass Manufacture, The Use of 163
CULLET PILE PHILOSOPHY 20, 98, 221, 246, 296
Cullet, The Manufacture and Use of.. 66
*Devitrification, Tank Control and.... 1
*Electrification Effects Large Saving in Coal 267
*Engraved Glass, The Story of..... 239
Etching, Progress in Glass..... 7
*Frosting of Glass 131
*Fuel in Glass Furnace Stack, Natural Gas as 5
Fuel Oil Storage Tanks, The Gaging of 293
Furnaces, Heat Transfer in Glass.... 88
*Gas for Making Glass, Use of Manufactured City 31
Gas Producer Costs, A Few Points on 189
*Gas Producer Operations, Keeping Records of 129
Gas Producers Reduce Operating Costs, How Mechanical 52
Gases in Glass, Dissolved..... 179
German Patents on Glass, A Classified List of 91
Glasses Which Absorb Ultra-Violet Rays, The Composition of..... 212
Glass, Dissolved Gases in..... 179
*Glass From Abroad, Fine Specimens of Modern 85
*Glasshouse, Compressed Air in the... 109
Glasshouse Pots, The Durability of.. 236
Glass-Making, Fifty Years of.....242, 270
*Glass-Making Methods and Batches of Twenty-five Hundred Years Ago 264
*Glass-Making, One Hundred and Twelve Years of 207
Glass Molds Be Coated With Chromium, Can 191
Glass on Refractories, The Action of Molten 193
Glass Tanks, The Water Cooling of.. 231
Glass Technology, Aiding the Progress of 81
Glass, The Function of Lime in..... 186
Glass Transmits Ultra-Violet Rays, New 136
*Glass, Use of Manufactured City Gas for Making 31
Heat Transfer in Glass Furnaces.... 88
LABRATORY, THE 94, 114, 140, 164, 192, 218, 269
Lime in Glass, The Function of..... 186
*Melting Tank Glass, New Method of 35
Molds Be Coated With Chromium, Can Glass 191
*Mullite Refractories 285
*Natural Gas as Fuel in Glass Furnace Stack 5
*Natural Gas in West Virginia, History of the Production of..... 158
*One Hundred and Twelve Years of Glass-Making 207
Pots, The Durability of Glasshouse... 236
Plate Glass, Final Sessions of Tariff Hearing on 41
Plate Glass Manufacturers at Tariff Hearing 11
Producer Fuel and Its Significance, Ash in 157
*Refractories, Mullite 285
Refractories, The Action of Molten Glass on 193
Sand Specifications, Glass Division Votes on 37
*Schott, Dr. Otto 290
*Seeds in Glass, Sodium Chloride as a Possible Cause of 153
*Sheffield Glass Bottle Company, New Plant of 181
Sillimanite in Glass Works Practice, The Use of..... 113

*Articles marked with asterisk are illustrated.

*Sodium Chloride as a Possible Cause of Seeds in Glass..... 153
*Speed Reducers of Proper Capacity, Selecting 116
Tank Block Corrosion, Theory of Glass 107
*Tank Block Problem Solved at Corning 255
Tank Block Problem, The 283
*Tank, Continuous Feeder in Successful Operation on Window Glass.. 4
*Tank Control and Devitrification.... 1
Tank Furnaces, Colorless Glass Production in 213
*Tank Output Without Temperature Increase, Greater 34
Tanks, The Water Cooling of Glass.. 231
Tariff Hearing, Plate Glass Manufacturers at 11
Tariff Hearing on Plate Glass, Final Sessions of 41
TECHNICAL CONSULTATION SERVICE 19, 49, 69, 97, 119, 143, 167, 195, 221, 245, 273
*Temperature Gradients in the Fabrication of Blown Glassware, The Use of 233
Ten Years Retrospect (Society of Glass Technology 289
Test for Bottles, Strain and the Hot Water 261
*Testing of Milk Bottles..... 137
*Ultraviolet Transmitting Glass, A. New 287
Ultraviolet Rays, The Composition of Glasses Which Absorb..... 212
Ultraviolet Rays, New Glass Transmits 136
Ultraviolet Rays, Protecting the Eyes Against 288
Water Cooling of Glass Tanks..... 231

MINOR ARTICLES, ABSTRACTS

Annealing Glass, Fundamental Requirement for (Abstract) 61
Arches for Kilns and Furnaces, The Design of (Abstract) 89
Bottles for the Sale of Lubricating Oil 197
Bottle Glasses, Some Tests on (Abstract) 84
*Electric Heat to Glass Annealing, The Application of (Abstract)... 62
Frosted Lamps, Inside (Abstract).... 217
*Fuel for Heating, Selection of..... 53
German Glass Industry, International Capital in the 69
Glass as a Factor in Civilization (Abstract) 60
Glass Batch—A Problem..... 3
Glass Manufacturing Methods in Various Countries, Comparison of (Abstract) 61
Glass Wool as Insulator for Refrigeration (Abstract) 117
*Heat Value of Coal—Dulong's Formula Simplified 6
Leather Belting, Life of..... 36
Melting Glass By Electricity (Abstract) 235
Mullite and Its Industrial Application (Abstract) 216
*Mullite Content of Some of Our Commercial Blocks (Abstract)... 165
National Physical Laboratory's Work on Glass 196
Ornamental and Art Glass Industry of the Iser Mountains 115
Patent System, The American..... 274
Plate Glass, History and Recent Progress in Manufacture of (Abstract) 61
*Pyrex Glass and Porcelain in Sunlight, Relative Temperature of (Abstract) 89
Pyrex Glass, Latest Applications of... 10
Refractories for the Glass Industry, Literature on 275
"Seeds" in Borosilicate Crown Glass, Zinc Oxide and 238
Sandless Glass 142
Soda-Lime Glasses, The Influence of Moisture on the Rate of Melting and on the Properties of (Abstract) 162
Shopping Around 168
Tableware, Revised Specifications for. 219
*Tank Blocks, Wearing Away of (Abstract) 64
Uranium Compounds, Note on the use of 185
*Window Glass, Chemical Composition of (Abstract) 65
Zinc Oxide and "Seeds" in Borosilicate Crown Glass 238

AUTHORS
